AN INVASION

Into Oklahoma Expected on the Night of the 20th.

COLONIES BEING ORGANIZED BY THE BOOMERS ON THE BORDERS.

Settlers Will Be Allowed to Cross the Cherokee Outlet in Order to Reach the Coveted Land — "Oklahoma" Bill's Scheme to Reach There First—A Mistake in the President's Proclamation.

ARKANSAS CITY, Kan., April 13.—The population of this city has increased one-third during the past week. Two thousand eager boomers are here, and at least another thousand are along the line south of here. The half a dozen hardware stores have sold out their entire stock, and the demand is no half supplied.

The boomers are forming into small colonies of twenty-five to fifty persons and are devising schemes to outwit their neighbors and get into the heart of Oklahoma by the appointed time.

There is a feeling all along the border that there will be a general forward movement into the territory on the night of April 20. Boomers who have been here all winter have picked out their land, and they are suspicious and afraid of the new comers. They don't propose to have the land they fought and bled for jumped by recent arrivals.

The Cherokee Outlet.

WASHINGTON, April 13.—In answer to an inquiry from the secretary of war on behalf of a large number of persons contemplating settlement in Oklahoma, asking if permission is to be given these intended settlers to cross the Cherokee outlet to the northern line of Oklahoma before the 23d day of April, the date upon which the president's proclamation opening the territory goes into effect, the secretary of the interior has replied in part as follows:

"I think they may be allowed to cross without extraordinary delay, and I, therefore, recommend that you instruct your commanding officers to place no obstruction in the way of persons who desire to journey in good faith, in a quiet, peaceful and orderly manner, upon and along the public highways, post or military roads, or established and customary cattle trails, through the Cherokee outlet, in going forward to the tract of land to be opened for settlement. But there should be a military patrol upon the road or roads that are to be taken, that shall prevent the settlers staying longer than is necessary on the way and require them to move on, making only the ordinary camps that may be necessary for their crossing."

There should be every care taken to have the Indians understand that by this passage there is no disposition to appropriate their lands, and that it will be continued no longer than absolutely necessary after the first migration to the Oklahoma country is over. The military forces should then scout the Cherokee outlet, and require all persons unlawfully there to move on, either back to Kansas or over into the Oklahoma lands."

The secretary in another part of the letter says that he deems that the settlers are entitled to as much consideration as has been given cattlemen and others heretofore who have been permitted to travel upon the trails and highways through the outlet. It is urged upon the secretary, among other reasons for granting this permit, that the settlers coming through the Chickasaw and other Indian lands, are gathering on the immediate borders of the Oklahoma tract without obstruction, thus putting those in Kansas, who must pass through the Cherokee outlet, at a disadvantage. No movement will be allowed under this permit until full authority and instructions shall have been received by the military having charge of the matter.

The recommendations of Secretary Noble were laid before the president by Secretary Proctor, and after consideration an order bearing upon the subject was sent from the war department this afternoon to the army officers in charge on the border of the Indian Territory, presumably to carry into practical effect Secretary Noble's recommendations.

Authoritative information on this point is, however, withheld.

"Oklahoma" Bill's Scheme.

WICHITA, Kan., April 13.—"Oklahoma" Bill has left to establish a "cannon-ball stage line" in Oklahoma from Guthrie to Kingfisher. All sorts of schemes to get into the country before the 23d are being employed, and "Oklahoma" Bill has had four large flat boats built with which he proposes to float his party down the Arkansas river to within ten miles of the northeast corner of the country, and then strike across and get there before the crowd. As the railroads refuse to haul freight, the flat boat crowd will carry their own goods. Bill says the river is navigable and a public right of way. This scheme has created considerable excitement here. The military has no jurisdiction, as the river can be used for boating purposes.

The Order is Embarrassing.

WASHINGTON, April 13.—It appears that the president's proclamation opening a portion of the Oklahoma lands to settlers was more sweeping in its terms than was intended in the matter of excluding persons from entry upon the lands before the date named in the proclamation. Under its terms the army officers have been compelled to keep out officials of the interior department, whose duty it is to provide for the establishment of the new land offices. To relieve these officials an order has been issued by the war department for their admission into the territory.

distance being 285 feet. Stanley now claims to be champion of the world, and will jump with Steve Brodie or anyone else who is worth a challenge. There was no money on Wednesday's jump, but he has friends who will back him for \$300 or \$5,000, among them the father of two young ladies who were saved by Stanley from drowning in the Ohio river.

SHOT IN HIS OWN DOOR.

Cold-Blooded Murder Near North Vernon, Indiana—Origin of the Trouble.

NORTH VERNON, Ind., April 13.—Late Wednesday night Joseph Maynard went to the residence of Hery Roan, who lives about six miles north of this place, and called him to the door and shot him without saying a word. The weapon used was a shotgun, which was heavily loaded. The shot was discharged mostly in the head of the unfortunate victim. Mr. Roan cannot recover.

Maynard attempted to escape, but word was received here late Thursday afternoon that he had been captured by the sheriff. The cause of the trouble is reported to have been that last Sunday night Mr. Roan heard some one in his dwelling house going through the drawers of his bureau, and on examination it was found to be this same man, Maynard. Maynard said if Roan related the circumstances he would kill him. The next day Roan told the facts to his neighbors, with the result aforesaid.

Had Accident in a Foundry.

YOUNGSTOWN, O., April 13.—While pouring a heat to make a 4,000-pound casting Thursday night, in the foundry of William Tod & Company, it exploded, hurling the molten metal in every direction. George Bryant, foreman, was leaning over the flask at the time, and received the full force of the explosion, literally roasting him. He was conveyed home in an ambulance, and will not survive his injuries. Frank Lee, a molder, was standing near Bryant, and was almost as badly burned, but it is believed he will recover. John Anderson, Nick Carroll and William Kurz were burned about the face and head, but not regarded dangerous.

Gas Well Accident.

MANSFIELD, O., April 13.—The breaking of a lever to regulate the speed of the sand wheel at the West Fourth street gas well, shortly after midnight Wednesday night, released the wheel from its position, and the heavy boiler, which was about 1,000 feet from the surface, plunged the remaining 2,400 feet to the bottom of the well. The terrific evolutions of the sand wheel completely destroyed the shed and derrick, and the two drillers narrowly escaped with their lives. The boiler and 2,000 feet of rope are in the well, and drilling will probably be abandoned, although the well is near Trenton rock.

Interesting Postal Case Decided.

ST. LOUIS, April 13.—Judge Thayer, of the United States district court, handed down an interesting decision Thursday in the case of the United States vs. Charles Gross, charged with stealing a package of newspapers from the top of a letter-box. Judge Thayer decided that the taking of a package of papers from the top of a letter-box is no offense against the mail laws. The top of the mail-box is not a receptacle for the mail, and a package placed there is no more in the custody of the mail than a package placed upon the steps of the post-office.

Italian Murderer Arrested.

SCRANTON, Pa., April 13.—Carlo Grandi, the Italian who murdered Antonio Pencilshere six weeks ago, was arrested Thursday in Uniondale and brought here. His hiding place was betrayed by an Italian, John Mendicino, who receives \$200 reward for aiding in the arrest. Mendicino is denounced by his fellow countrymen as a traitor, and threats are made to put him out of the way at the first opportunity. Grandi had been supplied with money and was to have fled from the country shortly.

Three Children Fatally Poisoned.

ST. CLOUD, Minn., April 13.—At St. Joseph yesterday Sebastian Merdian, a German farmer, who came from Bavaria about a year ago, was engaged in plowing. Four of his children were playing in the field, and following the furrows, found roots of wild parsnips which were plucked up, and all ate of them. They soon became violently sick, and three of them died in terrible agony.

Shot His Brother-in-Law.

DES MOINES, Iowa, April 13.—Near Sigourney on Wednesday Herman Smith and his brother-in-law, John McNabb, quarrelled over the right to use water from a well which their families had been using jointly. Revolvers were used and Smith shot and fatally wounded McNabb. Smith is in custody.

COAST DEFENSE.

The Naval Institute Listens to a Paper on the Subject.

BY CAPTAIN SAMPSON, SUPERINTENDENT OF THE NAVY ACADEMY.

He Says the Professional Opinion of the Service Has Not Received the Attention It Has Merited—How He Would Prevent a Blockade of the Port of New York—Other Notes.

ANNAPOLIS, Md., April 13.—Capt. William J. Sampson, superintendent of the naval academy and late a member of the board of fortifications, read Thursday night a paper before the naval institute entitled "Coast Defense."

All who had given the subject any consideration, Capt. Sampson said, were satisfied that the coast defenses of the country were inefficient and insufficient. The subject of the service had not received the attention which it merited. It was the duty of the profession to consider carefully all schemes and inventions and to assign them to their proper positions.

Professional opinion should be sufficiently flexible to accept the good and reject the bad. Some had proposed torpedoes, others air guns and others again patriotism. Each was good in its way, but altogether were insufficient. The sound policy of the recent administration of naval affairs should be developed. Preparations for war which are deferred until war is imminent invite defeat. To enforce the Monroe doctrine the country must depend upon its navy.

The means of naval defense were torpedo boats, gunboats and floating batteries or coast defense vessels. Torpedoes formed a most important part of coast defenses, but were of doubtful utility in a sea engagement, and it was only under peculiarly favorable conditions that torpedo boats should attack during daylight. Coast defense vessels should have an advantage over any vessels carrying the same guns sent against them. Lighter draught would be such an advantage. The small depth of water on the Atlantic coasts, if taken advantage of, might prove one of the strongest means of defense. The submarine torpedo boat, in Capt. Sampson's opinion, should be placed in the same category as the pneumatic gun—an untried weapon.

The conformation of the Atlantic coast was such as to form natural divisions which might be defended separately. The command of all the coast defenses from Eastport, Me., to Galveston, Tex., should be under the control of a single officer, who should be stationed at New York or some other central point. The commander of each section should be stationed ashore and be in direct communication with the commander-in-chief.

The first section might extend from Eastport to Cape Ann. The second section might be constituted of Massachusetts bay. The third section might comprehend Buzzard's bay, Narragansett bay and Long Island sound.

The speaker was convinced, he said, that if the port of New York were blockaded for a few months, the loss that would result to the nation would be as great as would be produced in the city by a bombardment.

To provide against such a blockade, Capt. Sampson suggested the building of three first-class vessels to cost \$10,000,000, three boats to cost \$3,000,000, and twenty torpedo boats to cost \$2,000,000. If needed, the defenses of the other two sections could be called to the aid of the defenders of New York.

The rest of the coast was divided into Section 5, formed by Delaware bay; Section 6, formed by Chesapeake bay; Section 7, from Charleston southward; Section 8, the gulf coast to the Mississippi; Section 9, Galveston.

To man such a fleet as would be needed for the proper defense of the coast would require 11,300 men.

TIFFIN, OHIO, EXCITED.

She Claims to Have a Gas Well That Knocks All Others Out.

TIFFIN, O., April 13.—Great excitement has been created here by the discovery of a large increased capacity in one of our gas wells. About a year ago the well was drilled in on the Highland addition to the city, and had a capacity of half a million feet, which has been utilized in the Beatty glass factory.

Friday morning the gas burst the pipes in the factory with terrific force, doing great damage to the building but fortunately no one was injured. Upon examining the well it was found that over 300 feet of the casing had been blown out and the flow of gas increased to 28,000,000 feet per diem. Thousands have visited the well and the territory is being leased by citizens and speculators rapidly as they can be drawn up. The well will be recased and used to illuminate the city on the occasion of our celebration which takes place on the 15th.

Fought on the Open Prairie.

DENVER, Col., April 13.—Patsy McCartin was knocked out by Charlie Gleason Thursday. The fight took place on the open prairie about twenty miles from this city, and lasted nine rounds. McCartin was terribly punished, both his eyes being closed. In the ninth round he was knocked senseless, and the fight was given to Gleason.

KANSAS CITY, April 13.—A wagon passed through here bearing the following inscription on its canvas cover: "Chintz Buggy in Illinois, Sliced in Nebraska, White Capped in Indiana, Bald-knobbed in Missouri, Prohibited in Kansas, OKLAHOMA OR BUST!"

RUSSELL B. HARRISON ARRESTED

On Account of an Article Published in the Montana Live Stock Journal.

NEW YORK, April 13.—Mr. Russell B. Harrison was arrested Thursday afternoon in the office of Judge, in the Potter building, on the charge of having published in his paper, The Montana Live Stock Journal, an article taken from a Buffalo paper, accusing ex-Governor John Schuyler Crosby, of Montana, with having stolen jewels from a Washington lady. Mr. Harrison came on from Washington Wednesday night for the purpose of having the papers in the suit served on him. The warrant was issued by Judge Beach, of the supreme court, who fixed the bail at \$5,000. Stephen B. Elkins, Vice President Rice, of the Park bank, and W. J. Arkell, of Judge, became Mr. Harrison's bondsmen. Judge L'Amoreaux, of Balston Spa, is Mr. Harrison's counsel and W. L. Sweetser his attorney.

Mr. Harrison was not in charge of his paper at the time the article was published, and knew nothing about it. When his attention was drawn to the fact that the Buffalo paper had not told the truth, Mr. Harrison offered to publish a suitable retraction. This, however, Mr. Crosby would not accept. He demanded that Mr. Harrison should write him a personal letter of apology, and also print the same. Mr. Harrison declined to do this, and Mr. Crosby hopes by having him arrested to force him to do so.

ABANDONED AT SEA.

Disabled Steamer Found Drifting—Where Are Her Passengers?

LONDON, April 13.—The steamer City of Chester from New York, which arrived at Queenstown Thursday night, reports having passed on April 8 in mid-ocean the Danish steamer Danmark from Copenhagen to New York. The vessel had been abandoned and was in a sinking condition. She had apparently been in a collision. Her bow stood high out of water while her stern was sunken almost below the level of the sea.

No News in New York.

NEW YORK, April 13.—The agents of the company do not credit the report. Mr. Edye, of the firm, has cabled to the London office for further particulars. The Danmark was formerly the freight steamer Jan Rydel of the White Cross line. She was built in 1880 at Newcastle, England, and was rated in the highest class. She was of iron, brigantine rigged, had three decks and nine water-tight bulkheads.

The greatest excitement prevails in shipping circles over the loss of the Danmark. The Thingvall line is probably the largest carrying immigrant line that plies between this port and Europe. The Danmark had on board when she left Christiansand for New York, on the 26th of March, 650 passengers, presumably all immigrants.

Good News for Pensioners.

WASHINGTON, April 13.—Commissioner of Pensions Tanner has issued an order holding that "Whenever a pensioner is disabled in a hand or foot in a degree entitling him to \$24 per month under the act of March 3, 1883, such pensioner shall, by reason of that fact, be entitled to the rate of \$30 per month under the act of Aug. 4, 1885." This order will probably affect the pensions of some six to eight hundred disabled veterans of the late war.

Saloon Wrecked With Dynamite.

BUTTE, Mont., April 13.—At 4 a. m. an attempt was made to blow up Jerry Driscoll's saloon in Dublin Gulch. A couple of sticks of giant powder were placed under the building and exploded by a fuse, badly wrecking the building. Two men were sleeping in the store and were slightly injured. A man named Tom McCarty, who had a grudge against Driscoll has been arrested.

Five Persons Burned to Death.

CLAYTON, Ga., April 13.—The house of W. P. Wood, two miles from this place, was burned to the ground early Thursday morning, and Mrs. Wood and her five children were burned to death. Mr. Wood, who is a carpenter, was absent from home. The fire is supposed to have been communicated to the house by burning leaves.

A Mysterious Disease.

LINCOLN, Ill., April 13.—An extremely malignant and mysterious disease resembling in some respects scarlet fever has broken out in the country a short distance east of this city. So far some dozen cases have been reported, all proving fatal. The disease usually runs its course within thirty-six hours, and so far has been confined to children.

Suicided to Escape Pain.

NEW YORK, April 13.—Justin Genoz, aged 22, shot and killed himself Thursday, to escape the pain caused by a chronic disease. She was the daughter of August Genoz, proprietor of the Schenck park in Harlem. She left a note for her mother asking that her father and friends be told that the shooting was accidental.

Ohio Legislature.

Senate—Bills passed: Preventing the perpetration of frauds on consumers of gas; requiring nine operators to keep miners supplied with props. The bill requiring the inspection of cattle on foot was lost.

House—Indefinitely postponed: Bill authorizing the formation of companies to become bondsmen, administrators and executors. Bills passed: Taxing fishing nets; continuing the canal commission; punishing trespassers upon public grounds; making an appropriation for salaries of members.

Signed With the St. Louis Browns.

ST. LOUIS, April 13.—"Silver" King, the noted pitcher for the St. Louis Browns, has signed a contract with that club, and will pitch in the games at Cincinnati next week. King is the last of the four members of the club who held out for an increase of salary, but finally accepted the terms offered.

DAILY EVENING BULLETIN.

DAILY, EXCEPT SUNDAY.
ROSSER & MCCARTHY,
Proprietors.

SATURDAY EVE, APRIL 13, 1889.

The Ohio Legislature has passed a bill giving liens for labor and material priority over all others. It is a just law.

The Democrats have concluded they have a fighting chance in Montana and Washington, two of the new States, and they are preparing to sail in and make it interesting for the other side.

All the iron works at Ashland are shut down except the Norton furnace. Over-production is the cause. What they need is a wider market, something they are "protected" from by the high tariff.

The editor of the Mt. Sterling Sentinel-Democrat is certainly one of the most selfish fellows in the State. He actually wants the name of Maysville street in that city changed, simply because it advertises Maysville.

The total vote in Rhode Island at the recent election was 43,000, about 3,000 more than last November. The Republican vote fell off nearly 4,000, and the Democratic vote has increased about the same number. Little Rhody will be all right from now on.

Mr. JOHN L. WHITAKER has decided to enter the race for County Attorney, and his announcement appears elsewhere in this issue. Mr. Whitaker filled this office two terms previous to the election of the present incumbent, and all will admit he is thoroughly qualified for the place. His eight years service fully acquainted him with the duties of the position. As a Democrat he has been faithful and consistent, and has always been found supporting the nominees.

THE attention of the Pharisee Republican newspapers is pointedly called to the fact that a Ballot-Reform bill has been rejected, kicked under the table and hooted at in the Legislatures of those typical Republican States, Maine and Ohio. The average Republican exhorter is very anxious to reform somebody else, but "does not want any reform in his."

At same time, the Democratic Legislatures of Indiana, Tennessee and other States have passed stringent and efficient laws to reform the ballot system. Comment is hardly necessary. Draw your own conclusions.

Mr. G. F. POLLITT formally announces himself to-day as a candidate for County Assessor. By reference to the card of Mr. C. Coryell it will be seen that Mr. Pollitt is the choice of the Orangeburg Democracy. It is the first time he has ever asked his party for office, and he thinks Orangeburg is entitled to the nomination. She is one of the banner precincts of the county, and has no other candidate. Mr. Pollitt has served as Assistant Assessor under Mr. John R. Burgess, and claims he is fully acquainted with the duties of the position. His Democracy is unquestioned.

COLONEL BLOCKS-OF-FIVE DUDLEY's visit to States which have always been honestly Democratic to hunt for proofs of "fraud" on which to base a scheme for managing all elections for Congressmen by the central power at Washington is an exhibition of adamant cheek that beats the record. Indiana has not been carried honestly by the Republicans in a dozen years. How would this insect of corruption like to see a Democratic Congress redistricting that State and a Democratic administration boasting its "elections?"

This fellow Dudley ought to be serving a term in the penitentiary for the nefarious work he did in the campaign last fall, and there's where he would be if Judge Woods, of Indiana, hadn't used his official position to stop the prosecution.

What Not a Barrel Factory?

The three distilleries at this place will use over 5,000 barrels the present run, and about that many are required every year.

These barrels usually cost \$2 each—a little less in 2,000 lots—making about \$10,000 a year paid out for this purpose by the three distilleries.

At present not one of these 5,000 barrels is made in Maysville. The \$10,000 each year is taken away from this city and goes to help build up other places. Why not start a factory here and keep this money at home?

Such an enterprise would afford employment to quite a number of hands. Contracts for the 5,000 barrels, could, no doubt, be easily closed with the proprietors of the distilleries. This would be sufficient for a good start, and many more barrels could, no doubt, be sold in Central Kentucky.

The matter is one that deserves consideration.

County Assessor.

To the Democratic Voters of Mason County—After a satisfactory test it has been found that G. F. Pollitt is the choice of the Democracy of the Orangeburg precinct, for Assessor. I therefore now withdraw from the race, and ask all my friends to support and use their influence for Mr. Pollitt. C. CORYELL.

Railway News.

The material for the C. & O. depot at Manchester was shipped there this week, but work has not yet commenced, owing to some dispute over the site selected.

Three hundred and twenty-five passenger trains arrive and depart from Cincinnati every twenty-four hours, which is an average of a train every four and a-half minutes.

The annual report of the Norfolk and Western Railroad, covering 1888, shows the gross earnings at \$4,899,568.89; operating expenses, \$3,001,927.13; net earnings, \$1,897,677.76, an increase of 7 per cent. over the previous year.

Cincinnati has come rapidly to the front as a railroad center in the past few years, and is now away up in the first rank. There is invested in the lines coming into Cincinnati over \$500,000,000, or over fifty times as much money as the combined capital of all the banks in the city.

The bridge of the Louisville Southern across the Kentucky river at Tyrone, is a cantilever, 294 feet high, with a central span 551 feet in length, the longest in the world. The side spans are 208 feet long each, while the whole length of the structure, including the iron trestle-work approaches, is 1,658 feet.

The earnings of the roads from their passenger business, notwithstanding the large number of trains that are run, are small in comparison with the revenue derived from their freight traffic. The roads entering Cincinnati have on their pay-rolls 7,500 employees who make Cincinnati their headquarters.—Enquirer.

Stock, Field and Farm.

Light snows and no heavy rains during the past winter have resulted in the most remarkable drought this spring that the lumber woods of upper Michigan have ever experienced.

According to one estimate, the city of New York consumed last year about 800,000 barrels of poultry and 200,000 dozen eggs. The city of Philadelphia used about half that quantity.

New Mexico and Colorado have passed laws providing that all meat sold within their borders must first have been inspected alive, and thus prohibiting the importation of beef dressed in other places.

Reports make it appear that sorghum-sugar-making in Kansas is a success. The works at Fort Scott and Topeka are to be enlarged and three new mills are to be erected in the southeastern part of the State. There are two National sorghum experiment stations in Kansas—one at Conway Springs and one at Douglas—and there is talk of starting three more.

Residence Burned Near Germantown.
The residence of Mrs. Rudolph Black, situated about three miles west of Germantown, on the new Augusta and Mt. Olivet pike, was burned to the ground about half-past 11 o'clock yesterday morning. A piano and about twenty dollars' worth of furniture were the only articles saved.

The building was a large two-story frame. The BULLETIN's Germantown correspondent "Chic" says the damage will probably reach \$7,000. There was no insurance, and the loss will prove a heavy one to the owners of the property, Mrs. Black and children.

Cause of fire, a defective flue.

Wreck on the C. & O.

A westbound C. & O. freight train jumped the track near South Portsmouth about three o'clock this morning. But meager particulars of the accident could be learned. It is reported some of the cars were smashed into splinters. One of the trainmen sustained a broken arm.

A wrecking train left here at 4 o'clock for the scene of the accident to clear the track.

All trains are delayed.

Opening of the Baptist Church.

The new Baptist Church in this city will be opened for public worship on Sunday, April 23rd, (fourth Sunday). Rev. T. T. Eaton, D. D., LL. D., of Louisville, will preach the opening sermon. All friends of the cause in the city and surrounding country are cordially invited to attend. R. B. GARRETT, Pastor. [Carlisle and Flemingsburg papers please copy.]

ESPECIALLY TO FARMERS

Do we call attention to several new styles of Working Shoes never before sold in this locality. The great improvement in these over the old kinds is at once apparent. The comfort and satisfaction in wearing them will certainly be appreciated. Don't buy a pair until you have seen these at

"A SOAP BUBBLE" is one of the most taking nonsensical creations of the day. It is well supplied with popular music, and when the humor lags horse play steps in to keep the ball a-rolling. Last night's performance was attended by a good-sized and appreciative audience. Mr. Ed J. Connelly was as mirth-provoking as ever, possibly more so, and his songs were never better received. Miss Dolly Foster is as piquant as a pinch of snuff, and though her voice is not of the most powerful, her vivacity and mimetic powers make full amends for any deficiency in the vocal line. She shared the honors with Connelly. Miss Ross is quite tuneful. The cast generally was up to requirements, and the audience felt quite sore when the curtain fell.—Kansas City Times.

Montgomery Phister, a Maysville man, at present dramatic critic of the Cincinnati Commercial Gazette, is the author of "A Soap Bubble." This play will be presented at the opera house next Friday night for the first time in Maysville.

ABERDEEN.

For a good meal, try the Eula House. Protracted meeting at the M. E. Church.

John Curran, ex-County Sheriff, was in town a few days recently.

Tom Cooper, who has been ill for quite a while, is slowly improving.

William Payne, a former citizen of this place, now of Ironton, is in town.

Ora Edgington has resumed his old position as night watchman and ferryman on the Gretna Green.

Titus Ellis, formerly of this place, now a Government employe at Washington, D. C., is visiting his parents here.

John Sibbald, of Washington, D. C., and Charles and Frank Sibbald, of Cincinnati, were here attending their father's burial.

The funeral of Mr. George Sibbald was largely attended. Mr. Sibbald was a man respected by all, honest and fearless in his convictions of right.

Captain S. P. Campbell and Private Tom McDaniel, of Power Campbell Camp, Sons of Veterans, made a trip of inspection to the Manchester Camp Wednesday night.

Just a little too previous. It seems that O'Hara will still be Treasurer of Huntington Township until September next. If the money and books have been turned over to his successor it will be a case of turn back.

Straws show which way the wind blows. The following score below needs no comment, only that the fight against Mr. Campbell was strong and very, very warm. But as usual Campbell came out on top. The vote for School Board stood: Dr. T. Heaton, 69; William N. Campbell, 59; A. T. Howell, 54; G. W. Schmitt, 30; J. W. Jones, 3; O. H. Perry, 3.

GERMANTOWN.

T. M. Dora visited the Queen City this week. Our merchants are all receiving and opening their spring stocks.

There will be an appropriate service of song at the Christian Church by the Sunday school on Easter morning, with other exercises suitable to the occasion.

Mrs. Johnson reports her two little grandsons, Claude and Bob, so well known in our town, as well as attending the city schools of Covington and improving rapidly.

The Good Templars are practicing for an entertainment for the benefit of the lodge, to be given the last of this month. They will be assisted by Mrs. Winkert, and we have no doubt it will be an enjoyable affair.

Mr. Carroll Staton, the new driver on our public conveyance, continues to grow in the good will and esteem of our people on account of his very accommodating and affable manners in his intercourse with the traveling public.

Professor Smith is with the band this week, and they are doing some good work. Our citizens are promised quite a luxury during the warm summer evenings in listening to the music. It is heard and enjoyed by the people in the country some distance from town.

T. J. Black is having the property recently purchased by him thoroughly repaired and renovated, and when finished will make one of the neatest premises in town. But one thing will be needed to keep them so and make the owner happy, and we think his own good judgment will dictate to him what that one thing needful is.

The beautiful weather of the past few days found us fully prepared with all sorts of Fashionable Spring Clothing for Men and Boys, which partially accounts for the large business done. It is remarkable the amount of business we have been doing the past two weeks, while others are complaining of dull trade. No wonder. We have put our shoulder to the wheel, and with **LOWEST PRICES** and **BEST GOODS** as our wheel horses, **HONESTY** as our driver and **SQUARE DEALING** as our banner, we are certain to distance all competitors. Our Boys' Department has been a successful feature of our business this season. Special pains have been taken to please our young friends. The Boys will find our counters loaded with all sorts of Suits, stylish and cheap—just as much for the money as can be put in. The styles we are displaying are pretty, neat and original. We are showing the best assortment of **CHILDREN'S KNEE PANTS SUITS** of any house in the city, and the largest and finest stock the old **RED CORNER** has ever known.

BIG BLAZE IN BRACKEN.

The Town of Milford Almost Wiped Out of Existence—No Insurance.

The town of Milford, Bracken County, was almost entirely destroyed yesterday afternoon.

About 3 o'clock flames were discovered in a millinery store. The fire, fanned by the heavy wind that prevailed, spread rapidly. The citizens worked heroically, but notwithstanding all their efforts, the devouring flames leaped from house to house until nearly every building in the place was a mass of smoldering ruins. A fine bridge over the North Fork was also burned. Only one or two houses in the town escaped.

The principal building destroyed was the fine two-story business house of O'Gden & Duncan.

None of the property was insured. An agent from Mt. Olivet visited the place last week but the citizens declined to insure.

The amount of the loss is not known, but it is a heavy one, as the town had a population of 300 or 400. The people are left homeless.

Milford is situated several miles southwest of Brooksville.

The sixth annual commencement of the Higginsport High School was held Thursday evening. There were three graduates.

N. W. ZULE, of Locust Grove, Adams County, has secured an appointment in the Railway Mail Service on the run between Grafton and Cincinnati.

THE first meeting of the new City Council of Augusta was held last night. There were five applications for saloon license. A strong remonstrance was presented, but the remonstrators didn't receive much consideration. The license was fixed at \$500 a year. It was not learned how many were granted.

COLONEL JOHN S. JONES, a native of this city, and at present a well-known Ohio and Mississippi river commander and clerk, is an applicant for the vacancy in the office of the United States Snagboat E. A. Woodruff. Colonel Jones' varied experience in the routine of river work specially fits him for the position. His appointment would be hailed with delight by his many friends.

DR. H. A. M. HENDERSON was not greeted by as large a crowd at the court house last night as he deserved. Many were kept away, no doubt, by the inclement weather. The M. E. Church, for whose benefit the lecture was given, came out a little ahead after paying all expenses. Dr. Henderson spoke for over an hour on "The Swords of Grant and Lee," his discourse being an eloquent one.

At Manchester, Charles Thompson, who was shot by Sam Kimble, died a few days ago, after over three weeks' of terrible suffering. Kimble is at large, and a reward will probably be offered for him.

THE Misses Niland are exhibiting one of the handsomest stocks of millinery to be seen in Maysville. Their special display of trimmed goods, spring and summer styles, yesterday and to-day is an attractive one. They invite the ladies to call.

THE hotel and five cottages at Belle Grove Springs, Fleming County, burned Thursday morning, together with all their contents. The property was owned and managed by Colonel George H. Taylor. Loss, about \$8,000; insurance, \$2,500. Colonel Taylor was a Storekeeper here under the last Republican administration.

THE examinations in the city schools for the third quarter of the present scholastic year have taken place during the past week. These examinations are written and show very gratifying progress on the part of the pupils, which is the best evidence of good and faithful work on the part of the teachers. The papers are open for inspection.

A force of workmen under the management of D. T. Cockerill were engaged Thursday afternoon at Ripley, in tearing down ex-Coroner John Adkins' house when the only wall that remained standing was, by a strong wind, caused to fall upon them without warning. David Masterson and Cockerill were both hurled in the debris, but the energetic action of some fifteen or twenty men soon brought them from the ruins. Masterson's injuries were not serious, but Major Cockerill had his shoulder dislocated and both bones in his lower left leg broken, besides other internal injuries. Major Cockerill is an uncle of Editor Cockerill, of the New York World.

Sunday Services at the Churches.
Usual services at M. E. Church, South. No preaching at the Christian Church and the Central Presbyterian.

There will be preaching at the court house at 11 a. m. and 7:30 p. m. by the pastor of the Baptist Church, Rev. R. B. Garrett. All are invited.

Services at the M. E. Church at 11 a. m. and 7:30 p. m., conducted by Rev. Thomas Hanford, pastor. Baptism will be administered at the morning service.

Services at the First Presbyterian Church at the usual hours, conducted by the pastor, Rev. John S. Hays, D. D. During the morning service an opportunity will be given for parents to dedicate their children to the Lord in baptism; and a sermon will be preached in which the scripture authority for the mode in which baptism is administered by the Presbyterian Church will be presented.

THE LEADING CLOTHIERS AND MERCHANT TAILORS!

EXASPERATED.

The Parisian Press Violent in Its Abuse of Boulanger.

THE GENERAL GIVEN THE GRAND SNUB IN BRUSSELS.

Seventeen of His Adherents to Be Tried With Him—Germany Said to Object to Mr. Bates as a Samoan Conference Commissioner—The Czar Wounded by a Bomb—Other Foreign News.

PARIS, April 12.—Violence in journalistic polemics has reached an extraordinary pitch in the Paris press.

Exasperated by recent measures taken by the government against Gen. Boulanger, the party that acknowledges him as chief no longer restrains itself in the matter of abuse of the party in power. The amount and character of the insults Boulangerists organs manage to turn out daily are simply astounding. Henri Rochefort, the brilliant leader writer of The Intransigent, who, hitherto, has enjoyed a monopoly of this line, has now numerous imitators. The ministers are daily compared to all the celebrated criminals and assassins.

It was with a view to putting a check on this overflow of abuse that the senate passed the other day the bill giving the correctional police courts jurisdiction in cases of insult to public officials, ministers and members of the two chambers. The chamber of deputies, however, threw out the bill, and, as heretofore, public officers are compelled to trust to juries to do justice to their detractors. French juries are generally severe enough in cases where the rights of private property are involved, and also in criminal matters relating to rights of individuals, but they are given to leniency when the question at issue is one affecting the respect owing to those in authority by virtue of their office. The result is that French public officials are overcharged in running chances before a jury in cases involving their official dignity and honor.

It is not only members of the cabinet, but state dignitaries, who are exposed to the abuse of certain political sheets. The senate, since it has been made a high court of justice, objects to the constant and unrelenting attacks. It is a significant fact that it is not only the Republican senators who are thus abused. The Conservative wing of the upper chamber is not treated any better. M. Paul de Cassagnac indulges almost daily in the most violent abuse of the Duc d'Audifret Pasquier and other senators of the Right, who have signified their intentions of taking part in the proceedings of the senate when it sits as a high court of justice. The other day, when M. Buffet said that if the law conferring judicial powers on the senate were passed, he and his friends would do their duty under it, the editor of The Autorité lost no time in declaring that the parliamentarians of the Right were as worthy of contempt and hatred as the parliamentarians of the Left.

This outburst of anger on the part of M. Cassagnac against Conservative members of the senate is a fact which should not be lost sight of. It proves the difference of views and ideas which distinguish the Opportunists in the chamber from those in the senate. In the latter body almost the entire opposition has gone over to Boulangerism, and is every day drifting further and further in a violently revolutionary direction. The Conservatives of the senate are governed by a very different disposition. They are willing to take part in the proceedings of the high court of justice on the ground that it will be their duty to their country to not set themselves up in open opposition to the constitution. As a matter of fact there are not more than three or four of Boulangerists in the senate, and the Conservative senators will in all probability vote against him in a body. They have, however, given it to be understood that if the charges against the accused are not substantiated at the first sitting, or if his acts are proved to be not of a treasonable nature, they will press forward a motion for the senate to declare itself incompetent.

French Diplomats Leave Precipitately. BRUSSELS, April 13.—Upon the appearance of Gen. Boulanger at the soiree given by M. Somzee Wednesday evening, the officials of the French embassy who were present immediately took their departure. The Prince de Chimay, Belgian minister of foreign affairs, and most of the other members of the cabinet declined to be introduced to Gen. Boulanger, and also departed. Almost all of the diplomats present kept aloof from Boulanger during the evening.

PARIS, April 13.—Seventeen members of the Boulangerist party will be indicted by the senate court. They will deny the jurisdiction of the senate to try them.

O'Brien Transferred to Galway. DUBLIN, April 13.—Mr. William O'Brien was returned to Galway jail Thursday. He was surrounded by a strong guard of officers, who would not allow anyone to converse with their prisoner. Several of the town commissioners approached to talk to Mr. O'Brien, but the police refused to allow them near, and struck them with their swords. One of the commissioners was seriously injured.

Mr. Bates is All Right. LONDON, April 13.—The Berlin correspondent of The Daily News says that Germany has not protested officially against the appointment of Mr. Bates as one of the American commissioners to the Samoan conference, but that the government would prefer to have some one else appointed in his place.

Rumored Wounding of the Czar by a Shell. BUCHAREST, April 13.—It is rumored here that an attempt was made upon the life of the czar on Sunday last, and that his majesty was wounded by an exploding shell. The affair is said to have been hushed up by the Russian authorities.

Drouth in Egypt. CAIRO, April 13.—Owing to the scarcity of water the area of cotton culture this season is much restricted.
